## **Important Recycling News – for Immediate Release**

### **Dear Candidates...*RECYCLE Your Yard Signs!***

After presidential-year elections, millions of yard signs are discarded and buried in landfills. The Mahoning County Green Team wants to put a stop to this waste of valuable resources, so we urge all candidates to gather their yard signs – the standard plastic or paperboard with metal posts – and bring them to the South Side Annex, 2801 Market St., Youngstown – and **NEATLY STACK THEM** against the fence in the **REAR PARKING LOT**. Please DO NOT bring large wooded or metal signs, **just the STANDARD YARD SIGNS.**

The metal posts, and the plastic or paperboard – are recyclable materials, and thus should not be discarded. For more details, call the Green Team as 330-740-2060. We can NOT go pick up the signs, so they MUST BE DELIVERED to the South Side Annex and NEATLY STACKED in the REAR LOT.

***So recycle those yard signs!***
