

[Proposed Additional and Replacement Levies for the May 3, 2022 Primary Election](#)

Property taxes are measured in mills. One mill generates one dollar of tax for each \$1,000 of a property's assessed value.

Additional Levy - A new levy

Replacement Levy - An existing levy to be replaced at the original levy amount approved by voters before any reduction factors due to House Bill 920. Generally increases current property taxes.

Renewal Levy - An existing levy to be renewed at the current millage amount. Generally does not increase current property taxes.

This chart only includes proposed Additional and Replacement levies.

<u>Subdivision</u>	<u>Type</u>	<u>Purpose</u>	<u>Millage</u>	<u>Time</u>	<u>Market Value</u>					
					<u>\$25,000</u>	<u>\$50,000</u>	<u>\$100,000</u>	<u>\$200,000</u>	<u>\$300,000</u>	<u>\$400,000</u>
Canfield Local School District	Bond - New	School	6.9	37 years	\$60.38	\$120.75	\$241.50	\$483.00	\$724.50	\$966.00

Additional and Replacement Levies approved by voters after 2013 are not reduced by the Non-Business Credit or the Owner Occupant Tax Reduction

[Steps to Calculate Real Property Tax Increase from Additional and/or Replacement Levies](#)

Market Value (Value set by Mahoning County Auditor) x 35 % = Assessed Value (Taxable Value)

Assessed Value ÷ 1,000 (Tax Rates are based on a taxable thousand) x Proposed Additional or Replacement Bond/Levy Amount = Yearly Gross Tax Amount before applicable reductions/credits

[Sample Calculation](#)

Market Value	\$100,000
Assessed Value	\$35,000
Assessed Value ÷ 1,000	35
Proposed Levy Amount in Mills	6.9
Yearly Gross Tax Amount for the Proposed Levy	\$241.50
